

Combat Shrinking Profit Margins: How VideaAI is Transforming Dental Practices

Grow your practice with AI-powered diagnostics. VideaAI enhances clinical consistency, improves patient outcomes, increases case acceptance—all while driving revenue.

What is VideaAI?

VideaAI is an AI-powered diagnostic assistant that helps dentists detect, diagnose, and explain treatment options. With 34 FDA-cleared AI detections and a 65%* reduction in false positives, VideaAI is the most advanced AI diagnostic solution in dentistry.

Why Leading Practices Adopt VideaAI?

-  **Boost Case Acceptance** – AI-powered visuals simplify complex diagnoses, helping patients say “yes” to treatment faster.
-  **Expand High-Value Treatments** – Instantly detect and prove out more cases for major procedures, preventive treatments, orthodontics, and periodontal needs.
-  **Strengthen Patient Trust** – AI-driven detections provide consistent patient education tools for all providers.
-  **Save Time & Increase Confidence** – Reduce manual X-ray reviews, speed up decision-making, and enhance diagnostic confidence.
